

Congratulations!

You are holding the most advanced coating in the world when it comes to spandrel applications.

How can we make such a bold claim?

	OPACI-COAT-300®	Ceramic Frit
Opacifies Glass	●	●

No Heavy Metals	●	×
Vibrant Color Array	●	×
Stringent Color Tolerance	●	×
Apply to Annealed, Heat-Strengthened & Tempered Glass	●	×

HIGH PERFORMANCE COATINGS

- Independent studies have shown, **ceramic enamel weakens glass by over 40%**, while **OPACI-COAT-300® does not weaken glass.**
- Scratched coating? Not usual – but if so, no problem, **OPACI-COAT-300®** can be repaired at the job site.
- **We can match virtually any color and deliver orders and samples 3X faster than any other company.**
- No one in the industry can boast of a color tolerance/match of 0.2 dE or less. **WE DO!**

See our website for more at www.icdcoatings.com/how-we-compare or call 1 (360) 546-2286. We would love to discuss your next project and why **OPACI-COAT-300®** is clearly a superior choice.
